[DIY Soundwalks](#) - Stephanie Loveless & Brady Marks - variable - 2008 - immersive, listening

Do-It-Yourself
Soundwalk
Instructions
...initiating independent sonic explorations...

When you are ready to receive your instructions, please click below. A unique soundwalk will be generated for you at that moment.

[*your soundwalk*](#)

"A soundwalk is any excursion whose main purpose is listening to the environment. It is exposing our ears to every sound around us no matter where we are." - [Hildegard Westerkamp](#)

The nature of these sonic explorations is influenced by both Soundwalking and Deep Listening practices. Deep Listening is a philosophy of sonic awareness developed by [Pauline Oliveros](#).

Do-It-Yourself Soundwalk Instructions by [Stephanie Loveless and Brady Marks](#)

Created by Stephanie Loveless and Brady Marks for the 2008 Vancouver New Music festival, the DIY Soundwalk website is designed to incite sonic explorations wherever a person happens to be, and at whatever time. Interested parties are led to a webpage where they receive a soundwalk generated -- in the moment of their clicking -- from a number of carefully composed parameters.
